

## **TWIGS October Report – Astrology**

At the TWIGS meeting this month we were treated to an insight into the incredible subject of Astrology by professional astrologer Patricia Godden. We heard all about the history of astrology and were given a basic outline of how it works. It was fascinating to hear how the positions of the planets have an effect on everything, from us in our daily lives to physical, political and economic activity on Earth. We learned how it is possible to predict general phases in our lives and our personal characteristics, all dependant upon the positions of the stars in relation to where and when we were born, and how we can use this information to enhance our lives.

We were even shown a chart of the positions of the planets for our meeting which predicted that there would be plenty of interaction (totally correct)! Many thanks to Patricia for such a thoroughly absorbing evening.
